

## **NTE Energy named to Inc. 5,000**

By Colleen Jones

August 17, 2019

NTE Energy has been named to Inc. magazine's 5,000 list of fastest-growing private companies in America for the sixth time. The St. Augustine-based company's rating was based on the company's revenue growth over the past three years. According to Inc., just 3% of companies have made the 5,000 list six times.

In 2018, NTE Energy opened two, 475-megawatt natural gas-fired combined cycle power plants in Middletown, Ohio, and Kings Mountain, North Carolina. The company has several other projects in various stages of development, including a 650-megawatt facility in Killingly, Connecticut, that is expected to break ground in the fall.
