### **Vilano Boat Ramp and Parking Lot Access Restricted Due to Dredging Project**

Access to the Vilano Boat Ramp and a portion of the adjacent parking lot will be limited until January 2018 due to a dredging project. The work may also require intermittent closures of the boat ramp during this time. Boaters are encouraged to exercise extreme caution when using the ramp and parking lot during the dredging process and utilize other boat ramps when possible. Every effort is being made to accomplish the dredging and parking lot restoration in the most efficient manner in order to allow full use of the facility as soon as possible. We appreciate your patience during this time of progress that will improve the channel for all boaters. For more information on the Vilano Boat Ramp or the status of other Parks and Recreation facilities, please call 904.209.0333.
