

St. Johns County Accessible COVID-19 Collection Sites

Flagler Health+

Flagler Health+ has established an outdoor test collection site for patients who have a physician order for COVID-19 testing and have pre-registered through the system. The drive through process takes about three minutes. Test results are taking at least 4-5 days on average. Tests results are communicated back to the patient's primary care doctor who notifies the patient of the results. Positive results are also reported to the Department of Health.

Flagler Health+ is also offering a reduced rate of \$25 for people to see a doctor online who may not have a primary care doctor. The online doctor will determine if they need to be tested or not based on their symptoms and an algorithm. The online doctor can also prescribe medications for certain other diagnoses. For additional information visit www.flaglerhospital.org.
