

QUESTION 28 - HEALTH CARE

- A. Describe the health care services and facilities that will be required to meet the health needs generated by this project. Please provide a letter from the various providers acknowledging notice of the proposed development and ability to serve the project.**

Health care services and facilities required for the Elkton DRI would be those commonly associated with mixed-use projects containing residential and non-residential uses. Those services consist of both emergency treatment and non-emergency elective and health maintenance services. No health care facilities are proposed as part of this project, aside from doctor's offices that may locate within portions of the Elkton DRI designated for office use. No significant impacts to the regional health care system are anticipated as a result of this DRI. The following page contains correspondence from Flagler Hospital located in St. Augustine confirming their ability to provide health care services for the Elkton development.

Jacksonville, Florida 32224-0229

Dear Mrs. Hewett-Apperson:

In response to your inquiry dated June 23rd 2006, Flagler Hospital would be able meet the health care needs of the proposed Development of Regional Impact (DRI) in the Elkton area. Flagler Hospital has an average occupancy rate of 65 percent for this current fiscal year.

Please let me know if there is anything further you would need and we look forward to serving the new residents of Elkton.

Sincerely,

Joseph Gordy
President
