2.4. Reset Function	5
2.5. Map Functions.....	6

1. Navigating to the Capital Improvement Project Plan Dashboard

1.1 Dashboard Site Location and Access Info

- The [Capital Improvement Hub for Public Access](https://sjcpwd.maps.arcgis.com/apps/dashboards/899b4250a51b481f99f01a5e32f52588) can be found by clicking this link (<https://sjcpwd.maps.arcgis.com/apps/dashboards/899b4250a51b481f99f01a5e32f52588>)
- You will not need to sign in to access this dashboard.

2. CIP Public Access Dashboard Homepage

2.1 Dashboard Layout

From this application here, you can track active capital projects. It provides a total count of active projects, locations, descriptions, and infographics.

2.2 Filtering Function

Filters on the top right side of the screen can be used to narrow down the project type and phase to fine-tune your selection.

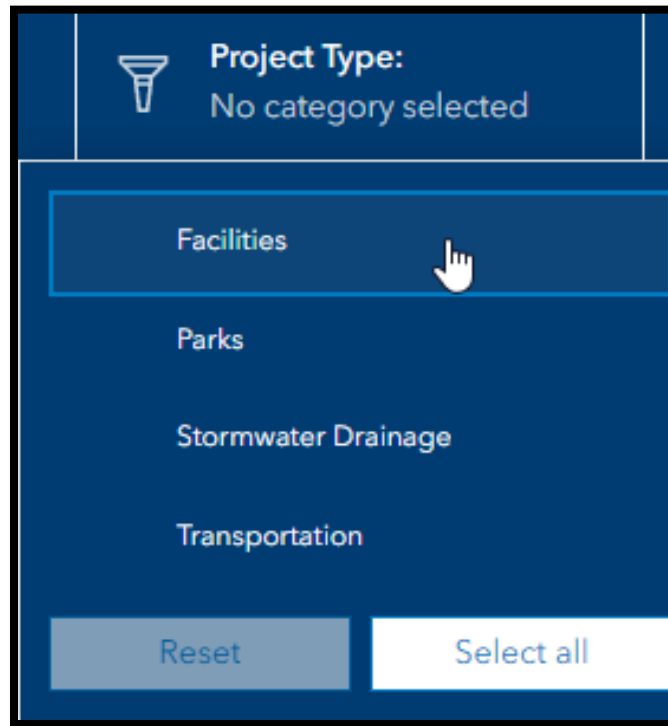

Image 2 CIP Filters

2.3 Selecting Function

Projects may also be selected from the “Projects” list in the highlighted section above and will display the corresponding project information, such as what is shown in image eight below.

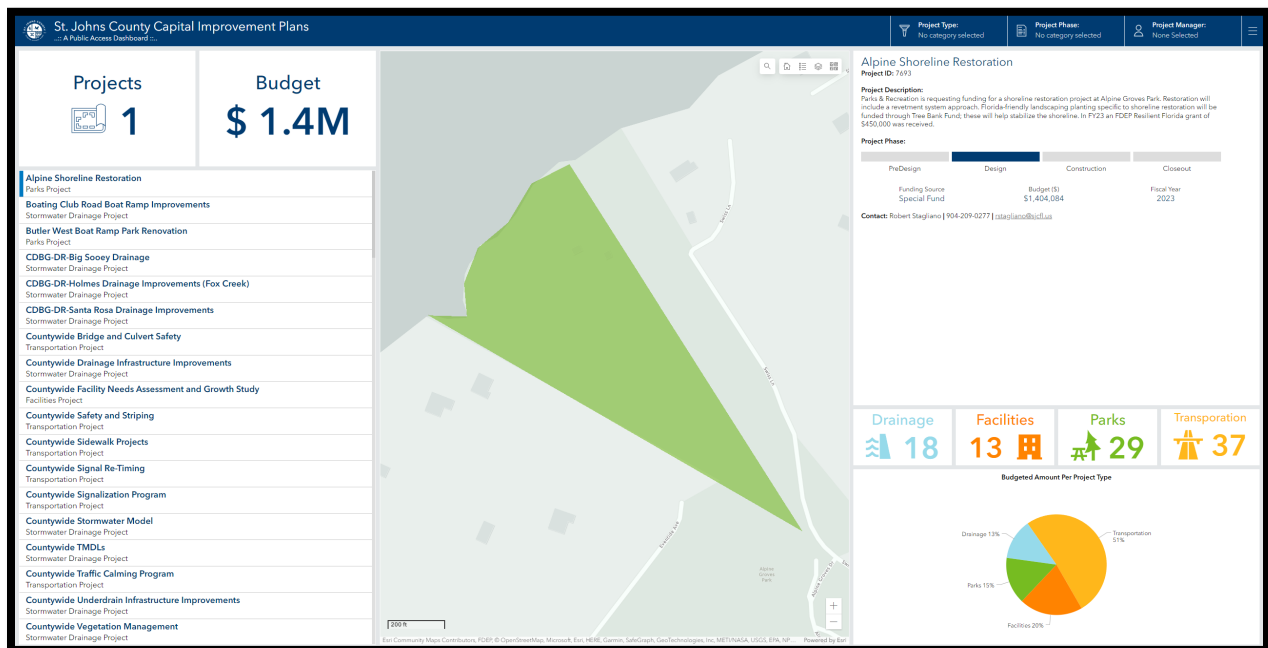

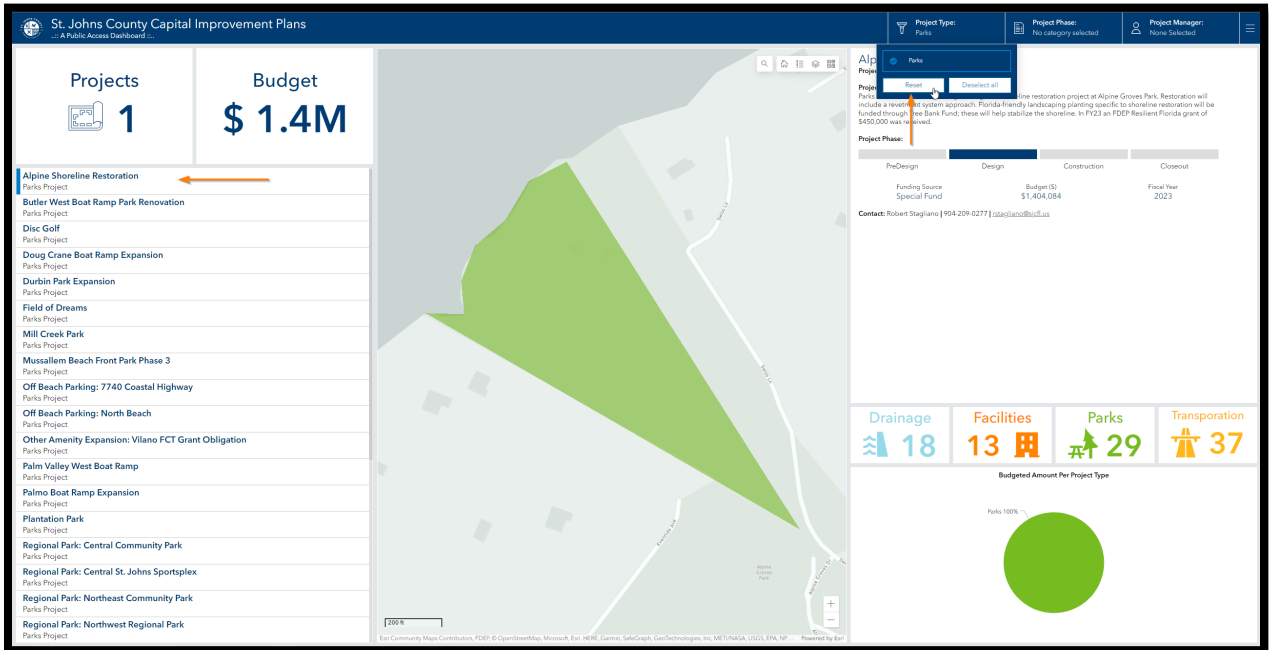

Image 4 Demonstration of Project Selection

2.4. Reset Function

To reset your selection, click on the project in the project list. To reset ALL project types, click on the “Reset” button.

The screenshot displays the 'St. Johns County Capital Improvement Plans' dashboard. On the left, a 'Projects' list shows 1 project selected, with a budget of \$1.4M. The 'Alpine Shoreline Restoration' project is highlighted in blue. A red arrow points to the 'Reset' button in the project list. The central map shows a green shaded area representing the project location. On the right, a 'Project Details' panel shows the project name, phase (Design), budget (\$1,404,084), and fiscal year (2023). Below the map, a 'Budgeted Amount Per Project Type' section shows a green circle representing 100% of the budget for Parks.

2.5. Map Functions

There are several map functions you can use to assist in displaying your project.

- 1) Address Search
- 2) Home (Zooms out to show the entire county)
- 3) Legend
- 4) Layers (can be used to turn on and off specific layers)
- 5) Basemaps (Allows you to choose what the basemap looks like)
